

INTRODUCTION

Neuro-Linguistic Programming (NLP) turns human excellence into mental strategies and physical actions. It is a set of tools, processes, techniques, and skills that can be used to create positive change in yourself and in others. In other words, it is the user guide to our minds, which lets us lead our own lives towards more happiness and success.

This 6 Day programme is designed as an intensive hands on course with an active learning training format where participants will be taught a concept and shown a demonstration first, followed by a practice session and a debrief session. This accelerated learning format ensures high mastery and understanding of the material and skill.

This NLP Practitioner course is INTERNATIONALLY recognised by the world's largest NLP authority, the American Board of NLP. Based on the core NLP tools & techniques as created by Richard Bandler & John Grinder, ABNLP has certified the largest number of NLP Practitioners in the world.

Dr. Sivakumar Kumaresan has been a practitioner of NLP for over 20 years and is the first NLP Trainer in Sabah. He has trained locally and internationally in the areas of personal development, communication skills, and performance coaching. He is also an Associate Professor of Chemical Engineering at Universiti Malaysia Sabah where he currently serves as the Deputy Director of the Centre for Industry and Community Network.
